QUALITY MODELING CLAY

Industrial, Craft, Hobby & School

KLEAN KLAY is a non-drying, **non-hardening**, no-sulfur modeling clay used for a variety of applications. It is **non-toxic**, sanitary, and odorless.

Klean Klay is easy to handle and work with and remains hand-pliable at room temperature.

Klean Klay keeps its smooth, firm consistency and retains the shape into which it is molded.

Klean Klay Modeling Clay is a suitable model and mold-making material for:

School Arts & Crafts	Taxidermy
RTV Silicone Rubber Molding	Architectural Modeling
Fibre Glass Molding	Metal Casting
Cement Casting	Forensic Models
Claymations and/or Special Effects for Stage or Film
